

## Senior Developer

State Water is a medium-sized water corporation that constantly strives to achieve its vision of excellence and growth. We are currently looking for an enthusiastic Senior Developer based in Dubbo.

### ***About the position...***

This is a fantastic opportunity to join a dynamic and dedicated Business Information Services team. This position will be responsible for providing technical leadership in the ownership and resolution of complex application problems and will also ensure that performance enhancements and maintenance programming on existing systems are in line with business requirements.

### ***About you...***

To be successful in this position you will have:

- Diploma or tertiary qualifications in information and technology or equivalent industry experience.
- Demonstrated experience developing and maintaining large applications in a Java, Oracle and windows based environment.
- Proven problem solving skills with excellent time management and the ability to adapt to changing priorities.
- Extensive experience in complex application development, implementation and support.

### ***Remuneration & benefits***

For the right person State Water can offer great career development and the opportunity to develop broader skills in this critical industry. An attractive salary range working a 9 day fortnight also applies.

**Closing Date:** 5 February 2012

*Taking care of people*
