

SUPPLEMENTARY/WINTER ACCESS FOR BORDER RIVERS

8 June 2010

State Water advises that, after receiving isolated storms in the upper catchments, winter access is available in the following river sections:

Winter access is available in the Macintyre River from Pindari Dam to the Macintyre/Dumaresq River junction from 1:00pm Tuesday 8 June 2010.

Customers wanting to extract water under winter access arrangements with supplementary access licences must place a water order and provide meter readings prior to taking water.

Water orders and meter reading may be provided:

- online via IWAS
- faxed to 1300 871 447
- emailed to NorthOrders@statewater.com.au

Failure to supply meter readings and place water orders will result in usage being debited against general security allocation accounts.
