

## **SUPPLEMENTARY WATER ACCESS FOR MURRUMBIDGEE VALLEY - UPDATE**

24 March 2010

State Water's Water Delivery Manager for Murrumbidgee Valley, Ned Hamilton announced today that further periods of access to supplementary water are available (see page 2 for details of supplementary availability). Daily monitoring of the river system has improved our estimated volume and timing of availability of the surplus.

"Customers wishing to access supplementary water must place a complying water order as normal (a complying water order must have a start meter reading). At the completion of pumping supplementary water the finish reading must promptly be phoned or faxed to your Customer Field Officer."

"Failure to supply this information will result in any water extracted being debited from general accounts," Mr Hamilton concluded.

State Water will continue to monitor the situation closely and will provide regular updates as more information becomes available.

For further information contact the Operations Officer, State Water Southern Valleys, Leeton (02) 6953 9800.

*(see page 2 for details of supplementary availability).*

*page 1 of 2*

The periods for access to supplementary water are as follows:
