

## OFF-ALLOCATION AND AWD

8 July 2010

State Water advises that off-allocation flows in the Peel River downstream of Paradise Weir to the Namoi junction are still available from **Thursday 8 July 2010 until further notice.**

Recent rains have resulted in flows in the Peel River downstream of Paradise Weir. Off-allocation water is still available in sections 2 and 3 of the Peel River to the Namoi junction.

Water users must phone 1300 662 077 to place orders for off-allocation water and to forward meter readings.

**Please note:** It is a requirement of your licence to order off-allocation water.

Water users who do not order their water in these periods will have the usage debited to their on-allocation accounts.

### Available Water Determinations (AWD)

Local water utility, domestic and stock licence holders and high security licence holders on the Peel Regulated River will receive full entitlement.

However, general security licence holders on the Peel Regulated River will initially be able to access 0.6 megalitre per unit share (60% of entitlement).

Further information on AWDs is available via the internet link below:
