

WINTER RELEASES NAMOI VALLEY

10 May 2010

Due to a lack of inflows in the Namoi Valley, the NSW Office of Water has suspended the requirement for State Water to deliver end of system flows to Walgett during 2010.

The requirement to deliver end of system flows may be reactivated should sufficient inflows occur over the next three months.

After reviewing completed customer surveys, State Water does not plan to carry out any winter deliveries within the Namoi Valley.

Water within Mollee weir will be transferred to Gunidgera weir this week to allow annual maintenance at Mollee weir during the week starting Monday, 17 May 2010.

Any customers wishing to take water over the coming winter months should contact State Water immediately.

As Mary Fielder is on leave, for further information regarding water delivery please contact: Ken Gee (07) 4671 6131 / 0427 293 534.

State Water wishes to thank users for their cooperation and looks forward to helping achieve the greatest productivity from the available water.
