At the completion of pumping supplementary water the finish reading must be notified by using one of the above methods. Failure to supply a water order and the finish meter reading will result in any water extracted being debited to general security accounts.

Attached on page 2 of this notice are the access licences that are participating in the current supplementary event and are able to extract water under the announcements made today, and the total available volume that can be extracted. Water orders are to be placed using the volume provided.
