

SUPPLEMENTARY ACCESS ANNOUNCEMENT FOR BORDER RIVERS NEWINGA TO MUNGINDI

05 March 2010

- B Class supplementary water access licenses located between Newinga Break out and Mungindi are advised that up to 54% of your supplementary unit shares can be extracted from the current unregulated flow (This is an increase of 26%).
- (NOTE THIS IS NOT 54% OF YOUR GENERAL SECURITY)

Customers are reminded that:

- 1) You are required to contact the river operations officer to confirm start times.
- 2) Your supplementary access limit is equal to your supplementary access licence unit shares.
- 3) Your supplementary water access licence must be current and linked to a licensed work. Supplementary access licenses cannot be extracted from a works that it is not linked to.
- 4) Your supplementary water account balance must be in credit.
- 5) Your extractions must not exceed your supplementary water account balance or the announcement quota.
- 6) Over pumping will result in the usage being debited to other accounts.
- 7) Customers must provide meter readings at the start and end of pumping, failure to supply meter readings will result in usage being debited against regulated water supply access licences.

For further information Roger Hunt(mobile 0427 601 152).
