

## SUPPLEMENTARY WATER ACCESS EXTENDED FOR MURRAY VALLEY IRRIGATORS

10 September 2010

The NSW Office of Water has announced today that an extension of a period of supplementary water access would be made available to NSW irrigators in some sections of the Murray Valley.

This announcement also means that general security licence holders can access 'uncontrolled flows' as the general security available water determination is below 60%.

However the total diversion of uncontrolled flow and general security water cannot exceed 100% of entitlement for the water year.

Customers wishing to access supplementary water must place a complying water order using one of the following options:

- Accessing [WWW.statewater.com.au](http://www.statewater.com.au) and logging on to your iWAS account
- Faxing your order to **1300 871 447**
- Emailing your order to [southorders@statewater.com.au](mailto:southorders@statewater.com.au)
- Telephoning your order to 1300 662 077 During business hours

Water order forms are available from the State Water web site <http://www.statewater.com.au/Documents/Customer%20Service%20library/Single%20licence%20water%20order%20form.pdf> )

At the completion of pumping supplementary water the finish reading must be notified by using one of the above four options. Failure to supply the finish reading will result in any water extracted being debited to general accounts.

Failure to provide this information will result in any water extracted being debited from ordinary accounts.

# Customer Notice

The periods for access of supplementary water are as follows:

Section	Start 8:00am	Finish 8:00am
<b>Mitta Mitta River</b>		
Mitta Mitta River D/S of Dartmouth Dam	Not	Available

@ With Limits

# Extension Possible

\* Extension Likely

**Limits:** Uncontrolled flow diversions at Mulwala Canal capped at 5000 ML/day from 8AM Monday 13 September till 8AM Wednesday 15 September due to rapidly falling tributary inflows

An extension to unregulated flows is possible if further rainfall is recorded

Customers requiring further information on river flows can contact the Duty Operations Officer on (03) 5898 3925.
