

## GLENNIES CREEK DAM UPDATE

24 November 2011

State Water advises that a controlled release from Glennies Creek Dam of 2,500 megalitres will commence at 3 PM today, Thursday 24 November 2011. That release is about a third of the current flow occurring in the lower Glennies Creek system which is now receding.

For more information about storage levels and river heights go to the *Waterinfo Website* at [www.waterinfo.nsw.gov.au](http://www.waterinfo.nsw.gov.au).

Please visit the SES website [www.ses.nsw.gov.au](http://www.ses.nsw.gov.au) for information regarding potential flooding.

For weather forecasts, please visit the Bureau of Meteorology website [www.bom.gov.au](http://www.bom.gov.au).

State Water will continue to advise landholders on its databases of any updates.
